

Ahead (Watts)

So she's gone now
And so am I
To the man I was before
Goodbye

So suddenly
She up and left
Not ever
Would I have guessed

She told me would it be all right
She told me it wasn't meant to be
She told me look forward, not back
At which I laughed so heartily

CHORUS

And why would I look ahead?
When I've lost the will
No, there's nothing there
Yes, I know the drill
When I look ahead
Everything is stark
When I look ahead
It's life in the dark

Love of my life
Girl of my dreams
You ripped me apart
And not at the seams

Bitch of my past
Wrecker of me
Won't take your advice
I'll just sink with glee

You told me would it be all right
You told me it wasn't meant to be
You told me look forward, not back
At which I laughed so heartily

CHORUS

And why would I look ahead?
When I've lost the will
No, there's nothing there
Yes, I know the drill
When I look ahead
Everything is stark
When I look ahead
It's life in the dark

You told me would it be all right
You told me it wasn't meant to be
You told me look forward, not back
At which I laughed so heartily
At which I laughed so gleefully
At which I laughed so deceitfully
At which I laughed so furiously
At which I laughed
At which I laughed
At which I laughed
