

Fear Your Fears (heckeler)

Shadowy truth

Eludes the inner eye

Spoon fed beliefs

Fill the empty mind

Whatever the reason

You choose not to think

Dismissing reality

Only leaves you weak

CH:

Fear Your Fears (alone and empty)

Fear Your Fears (shallow and petty)

Fear Your Fears (paranoid and angry)

Shifty motives

Obscure your poisoned soul

Saintly assertions

Will not make you whole

Fellowship is just

A means to an end

A chance to put the knife

In the backs of your friends
