

## **Obama's Fault** (Heckeler)

Hope and change

Just aint the same

when you have nobody

convenient to blame

If you look hard enough

You're sure to find

Plenty of stuff

to bring you peace of mind

Meteor on a collision course with the Earth

Obama's fault

Super star athletes raping little girls

Obama's fault

Soda machine eats all your dollar bills

Obama's fault

Glaciers melting all across the world

Obama's fault

In case you wanted

to look into the mirror

And find some small part  
you played in the horror

Remember there's no shame  
in placing the blame  
As long as that person  
has a Muslim name

Karate Kid 5 wasn't what you had hoped  
Obama's fault  
Flooding wipes entire communities from the globe  
Obama's fault  
The pot you copped were lawn clippings in a ziplock  
Obama's fault  
Your twenty-two's ammo went up ten cents a clip  
Obama's fault
