

Tell Me When It's Over [Watts]

You don't stand so close

You pull away instead of lean in

You avert my gaze

In so many ways

I sense our ride

Is coming to

Quite an unhappy end

CHORUS

I'm closing my eyes

Tell me when it's over

I'm closing my eyes

So tell me when it's over

I didn't love you anyway

Please tell me when it's over

I think you're telling lies

You say you're fine but I can sure tell

You won't even laugh

At the jokes that I craft

I sense our ride

Is heading for

A very unhappy end

CHORUS

I'm closing my eyes

Tell me when it's over

I'm closing my eyes

So tell me when it's over

I didn't love you anyway

Please tell me when it's over

But I might still love you

I think I still love you

Oh, I think still love you

I do still love you
