

Time is Fatal

By Scott Watts

Time is fatal
Don't look back now

The world marched to the beat of progress
'Til progress beat the world back down
A world of roads drove motion to unrest
Signs led to suffering abound

City-States are the state of things
Walls built up and laid to surround
To protect their patch and their kings
To stand for him and stand their ground

Time is fatal
Don't look back now
Time is fatal
Don't look back now

The oceans rose and the banks went bust
Once loud voices now don't speak a sound
The temperatures rose and the pillars rust
Once tied to a pulpit now can't be found

Freedom rang 'til the many went deaf
Wrapped in boxes, clearly labeled and bound
Living life to the fullest, leave no regrets
Who trumps who now, pound for pound?

Time is fatal
Don't look back now
Time is fatal
Don't, don't, don't
Look back now
